

Laboratory Scientist – High Resolution Mass Spectrometry

Scientific Operations – Operations

SCOPE

To face our constant growth, we are currently actively looking for a **Laboratory Scientist – High Resolution Mass Spectrometry**.

You will work on **innovative (bio)pharmaceutical products** under development (non-clinical and clinical phases).

You will be part of a team involved in projects outsourced by our clients.

Those projects are related to the development, validation and/or application of analytical methods based on a protocol for the characterisation and quality control of (bio)molecules.

YOUR MISSION

You will report to the Technical Leader.

You will be part of a team of 6 people.

In this role, you will be accountable for:

- Performing daily laboratory activities related to method development, validation and application depending on the client project
 - Performing analyses
 - Processing data
 - Writing reports and associated supporting documents
 - Presenting/discussing results
- Applying methods for QC and stability studies

Depending on your level of experience and autonomy, you could also be accountable for activities such as

- Validation of raw data
- Training team members and others on technical skills
- Taking part in the writing/preparation of protocols
- Supporting audits and investigations

PROFILE

- Master's degree / Engineer in Chemistry / Biochemistry, specialisation mass spectrometry and separation techniques

Required

- At least 2 years practical experience in development, validation and/or application of analytical methods to **large molecules**
- Very good theoretical knowledge and practical experience of **(U)HPLC**
- Good theoretical knowledge and practical experience of **analysis of peptides/proteins/mAbs by High Resolution Mass Spectrometry on Q-TOF**
- Relevant working experience in the pharmaceutical industry in a **GMP** environment
- Fluency in French

Plus

- Knowledge of **Ion chromatography, LC coupled to mass detector on Triple Quad**
- Knowledge of **Ion Trap** and/or **MALDI-TOF**.
- Good command of English (spoken and written)

Work @ Quality Assistance s.a.

Quality Assistance provides the pharmaceutical industry with all the analytical services required by EMA and FDA regulations for the development and marketing of innovative human medicinal products.

Quality Assistance is a European benchmark company in the analytical sciences.

With 35 years of expertise in the development and validation of analytical methods, cutting edge equipment and high level of Quality Assurance, Quality Assistance has gained the trust of the largest international pharmaceutical groups and numerous biotechnology companies based in Europe and the United States.

Quality Assistance offers you work in:

- The innovative human health sector
- A rigorous dynamic team
- An international working environment
- Spacious premises in pleasant surroundings

Quality Assistance also provides:

- In-service training adapted to your profile and position
- Career path
- A sector compliant remuneration package including numerous fringe benefits (luncheon vouchers, hospitalisation and ambulatory insurance, pension plan, etc.)
- In addition to the fringe benefits received by all the personnel, you will also be provided with a company car.

How can you apply?

Send your application (reference JOB079) now to Mrs Isabelle Lebrun, Talent Acquisition Manager, to recrutement@quality-assistance.be or consult the Careers page on our website <http://www.quality-assistance.com/careers/jobs>.

Address: Technoparc de Thudinie 2, 6536 Donstiennes, Belgium
